PIETTE

Operating in the events-organizing sector for twenty years, the Yolande Piette Communication team does not imitate, it innovates. Trendy openings, unusual receptions, high performance products launches, unforgettable commemorations... YPC aligns perfectly each corporate marketing event with the most stringent requirements of partners eager to ensure a maximum visibility of their projects. From the most private to the most thundering, from the most classical to the boldest events. Thanks to YPC, yours dreams will gain height. So you never get them out of sight..

PASSION

Cooperation, reflection, action, creation, innovation,... Instead of sluggish indifference, YPC prefer to put its imaginary at work under the impulse of your passions, a paramount value writ large in our business DNA. All these passions closely interweave for the sole purpose of building a strong partnership which will evolve over time. Your willingness becomes ours. Our enthusiasm becomes yours. And whatever the extent of your success, it will always remain primarily yours.

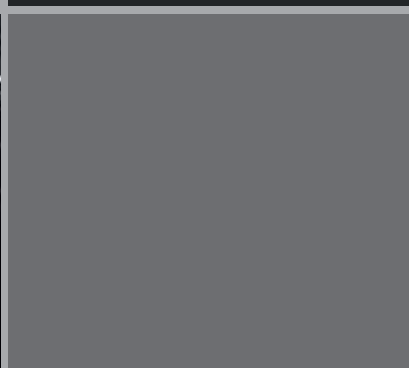

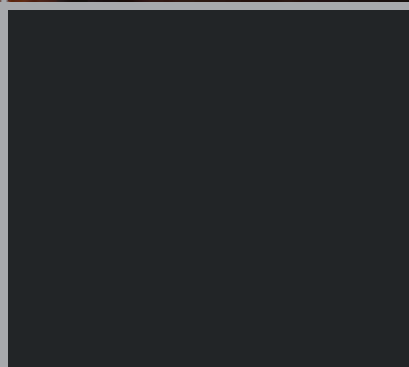

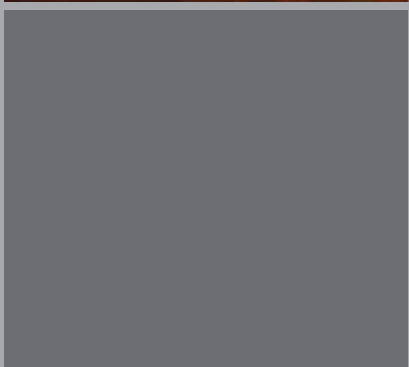

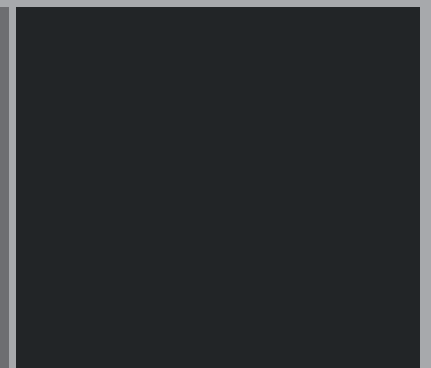

PRESTIGE

In the fascinating world of magic, prestige is the last magic trick, whereby a magician makes the impossible spring from the possible, enchanting a public irresistibly falling under the spell. As YPC has already demonstrated, each event can be turned into a fairy night. Choosing the location, decoration, light, staging, music, elements of surprise... Nothing will be left to chance to transport your guests in a universe sublimated by your outstanding art of receiving. And of giving.
